# THAI CHUNG YAP

---

## SUMMARY

Have been working in Accenture as Content Reviewer for 5 years, while doing some self-learning during break times. I'm passionate in improving my C# skill by learning web development due to my proficiency in it from Unity game development. Seeking a career or even internship which I can grow with the company and help achieve great ambitions, I'm eager to learn!

## SKILLS

C#, ASP.NET, ASP.NET Core, ASP.NET MVC, React.js, HTML, CSS, Entity Framework Core, SQL Server, Git and GitHub.

Proficient in English and Chinese languages.

## EXPERIENCE

### **Accenture Inc., Bangsar** – *Content Reviewer*

AUGUST 2019 – PRESENT

- Accept on-site training and evaluate video contents which might involve policy violations.
- Achieved good KPI with shift rotations and frequent policy updates.
- Submitted and presented a few ideations to improve the workflow.

## EDUCATION

### **Bachelor of Computer Science in Interactive Software Technology**

MAY 2015 – MAY 2019, Tunku Abdul Rahman University College

Studied various programming languages, especially C# and Unity3D for developing games and interactive softwares.

## AWARDS / MILESTONES

Acquired multiple certificates from Coursera's studies

Learnt using React Redux Thunk for central storage and tracking component status

Learnt using EF Core to create code first approach without running sql queries

Learnt creating custom middleware to validate class properties
